CST	\$5,000,000	\$2,000,000	
Total	\$5,500,000	\$2,500,000	

Public Benefit

Maximizing the value of Georgia's Assets

Notes

This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits

This project would benefit the traveling public by improving a key connectivity link over Whitewater Creek in central Macon County. The replacing of this bridge will benefit the public by providing a smoother surface for travel, along with optimizing capital asset management, and potentially improving safety.
