

# Project Sheet

**Project Number:** RC07-000009      **Project Name:** Westside Truck Route - Waynesboro

**GDOT ID:** 0011372

**Project Description:** The project is to construct a truck route on Waynesboro's west side that will connect SR 56 with US 25 and on to SR 56 North.

**Regional Commission:** Central Savannah River Area

**County:** Burke County

Phase	Total Project Cost	Total TIA Amount	Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher):
PE	\$223,360	\$223,360	The route could be 1.7 miles if existing roads are included in the route, or 2.7 miles if a totally new roadway is used. Route will likely improve existing roads to 12 foot lanes
ROW	\$700,000	\$700,000	
CST	\$2,847,835	\$2,847,835	
UTL	\$700,000	\$700,000	
<b>Total</b>	<b>\$4,471,195</b>	<b>\$4,471,195</b>	

Public Benefit	Notes
Ensuring Safety and Security	This project would benefit the public by potentially reducing the incidence of crashes along this roadway segment, corridor, and/or intersection.
Maximizing the value of Georgia's Assets	This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.
Supporting Economic Growth/Competitiveness	This project could assist in having a positive impact on the economic vitality for this region, and in some cases possibly for the entire state. Its impact could also be observed along the roadway segment, corridor, and/or intersection. Example benefits could be: improved access to jobs; improved travel times for drivers; increased lane capacity; improved efficiency and reliability for freight cargo/goods movement; providing border to border and inter-regional connectivity; and improve local connectivity to statewide transportation network.

Additional Benefits	This project would benefit the public by redirecting truck traffic around the west side of Waynesboro. This would relieve congestion issues caused by Trucks traveling through the city and would provide a safer route for the trucks to travel.
